✉ bryan.gutierrez@etu.minesparis.psl.eu 📍 Paris, France [in](#) Bryan Gutiérrez

Education

Mines Paris PSL , Engineering <ul style="list-style-type: none">• Deep Learning for Image Analysis.• Athens Program – Automatic Control of Aerospace Systems	Paris, France 2025 – 2028
National University of Engineering (UNI) , Mechatronics Engineering <ul style="list-style-type: none">• Strong foundation in electronics, control, robotics, and applied programming• Final project focused on industrial automation and IoT systems	Lima, Peru 2020 – 2024
CIBERTEC , International Business <ul style="list-style-type: none">• Training in economics, management, and organizational systems	Lima, Peru 2015 – 2018

Experience

FTI Consulting , Junior Consultant – Construction, Projects & Assets Worked on project management and digital transformation initiatives using EcoSys, supporting industrial and infrastructure clients. <ul style="list-style-type: none">• Configuration and deployment of EcoSys for project cost and schedule control• Client support, documentation, and Proofs of Concept• Exposure to large-scale infrastructure and consulting environments	Lima, Peru 2022 – 2025 3 years
---	--------------------------------------

Volunteer

People's Climate March , Lead Organizer Lead organizer for the New York City branch of the People's Climate March, the largest climate march in history. <ul style="list-style-type: none">• Awarded 'Climate Hero' award by Greenpeace for my efforts organizing the march.• Men of the year 2014 by Time magazine	Zurich, Switzerland Apr 2014 – July 2015
--	---

Awards

Nobel Prize in Physics The Nobel Prizes are five separate prizes that, according to Alfred Nobel's will of 1895, are awarded to 'those who, during the preceding year, have conferred the greatest benefit to humankind.' Royal Swedish Academy of Sciences www.nobelprize.org/prizes/physics/1921/einstein/biographical	Nov 1921
Max Planck Medal Awarded for outstanding scientific achievement German Physical Society	2029

Publications

Zur Elektrodynamik bewegter Körper It concerned an interpretation of the Michelson–Morley experiment and the properties of light and time. Special relativity incorporates the principle that the speed of light is the same for all inertial observers regardless of the state of motion of the source. Albert Einstein en.wikisource.org/wiki/Translation:On_the_Electrodynamics_of_Moving_Bodies
--

Über einen die Erzeugung und Verwandlung des Lichtes betreffenden heuristischen Gesichtspunkt

In the second paper, he applied the quantum theory to light to explain the photoelectric effect. In particular, he used the idea of light quanta (photons) to explain experimental results, but stressed the importance of the experimental results. The importance of his work on the photoelectric effect earned him the Nobel Prize in Physics in 1921.

Albert Einstein

Die Grundlage der allgemeinen Relativitätstheorie

The publication of the theory of general relativity made him internationally famous. He was professor of physics at the universities of Zurich (1909–1911) and Prague (1911–1912), before he returned to ETH Zurich (1912–1914).

Machine Learning	Jan 2018
Quantum Computing	Jan 2018
Quantum Information	Jan 2018

Projects

Quantum Computing	Jan 2018 – Jan 2018
Quantum computing is the use of quantum-mechanical phenomena such as superposition and entanglement to perform computation. Computers that perform quantum computations are known as quantum computers.
